

Promote Safety within Your School

The Perfect Program for all Childcare, Elementary, Middle, High School Students and Families

- >Certified Helmets Starting at \$8.95 each
- >No Minimum Order to receive our low pricing
- >1 Free Helmet for every 12 ordered of any style per

Running the CNS program is as easy as 1,2,3. Enclosed you will find all the necessary information you need to run a successful school program.

Helpful Tips to Run a Successful Program

- 1) Decide on a date you want your order to arrive. Count back approximately 5 weeks, this is when the information should go home with the students. **WA STATE SCHOOLS PLEASE ENTER YOUR LOCAL SALES TAX RATE ON THE PARENT ORDER FORM AND TALLY SHEET.** If unsure please call us at 1-800-642-3123.
- 2) Copy, Modify or Design your own Parent Order Form and Parent News Letter for everyone participating in the Sale. Sending a parent news letter with the order form gives you the chance to set a due date and other important information (a sample of such a letter is enclosed). Make sure dollar amounts match. When tallying your order keep shipping cost separate.
- 3) Allow 1 to 2 weeks for the participants to return their orders with payment. Please note that you may have some late orders, therefore, it is always a good idea to wait a few days after your due date before placing your order. Build this time in when choosing a arrival date. **CNS only accepts same day order add-ons.** This means any add-on orders received after the day your order was placed will be processed as a new order and shipping charges will apply.
- 4) **There is a \$36.00 minimum shipping cost on all orders.** Parents are to pay **\$1.50** per item that they order to help cover this cost. If you think orders will be under 20 items please figure out how to cover the shipping cost. Example: 1-20 items = \$36.00, 20 or more items \$1.50 per item (except visors) paid by each parent for what they order.
- 5) Make an **EXTRA COPY** of the tally sheet to record orders as they come in, then transfer the whole number to the tally sheet (do not use hash marks or zero) and fax or call the number on the tally sheet into CNS. (Keep the individual order form so when the order arrives you can match them up) **ALL ORDER MUST SHIP TO A SCHOOL. PAYMENT IS DUE NET 15.**
- 6) When your order arrives **PLEASE CHECK THE ORDER AGAINST THE PACKING SLIP** and then take a moment to verify items ordered with your tally sheet. Damaged or missing items must be reported to CNS within 15 days of the invoice date to receive a replacement.
- 7) Attach the parent order forms to the item (s) ordered. This makes it easier to hand out items to the correct individuals.

Don't Miss Our Sale

ASTM & Certified~CPSC Approved Bike, Ski, BMX/Skate Style Helmets,

Use Your Head and Wear A Helmet

Why do you need a hel-

IT'S THE LAW! It is now illegal for anyone under 16 years old to ride bikes on the street without wearing a helmet. Many Ski Areas & Resorts are now requiring ski helmets to be worn.

Every year, thousands of children are treated in hospital emergency rooms for head trauma and injuries suffered in bike and ski falls and crashes.

- A helmet can reduce the risk of head injury by up to 85% and the risk of brain injury by almost 90%.
Even a "minor" head injury can cause long term problems if not permanent personality changes and learning disabilities.
- Nearly half of the most serious injuries happen when children are riding in their own neighborhoods. An estimated 75% of bicycle-related fatalities among children could be prevented with a bike helmet.

No one can say for certain that any bicycle accident is totally avoidable or that any injury can be completely prevented. One thing is certain, wearing a helmet when riding reduce the risk of head injury.

WHAT IS THE BEST HELMET?

ONE THAT IS WORN!

Choosing a helmet that looks great and feels good may help to insure that your child wears it. Refer to order form on sizing and choosing the right size by measuring & age group.
